

Project Demo Planning

Date	30 September 2026
Team ID	SWTID-2026-8026
Project Name	Import Data using Transform maps (Spreadsheet)
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the team and explain the problem statement and project objective.	2	Santhakumari V
2	Solution Overview	Explain the import flow: Excel file, Data Source, Import Set, Transform Map, target table.	2	Nalayiram Chinnaveni A
3	Data Source & Import Set	Show creating the Data Source, uploading the .xlsx file and loading data into the Import Set table.	2	Seema M
4	Transform Map	Show field mapping, Coalesce and the validation script, then run the transform.	2	Nalayiram Chinnaveni A
5	Results & Import Logs	Show Transform Histories with inserted, ignored and error counts.	1	Seema M
6	Conclusion	Summarize the work done and future work (scheduled import, email notification).	1	Santhakumari V

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Team introduction and why importing spreadsheet data needs Transform Maps (2 mins).
2	Solution Overview	Explain the flow from Data Source to Import Set to Transform Map (2 mins).
3	Live Feature Demonstration	Import the sample spreadsheet, run the transform and show the results (5 mins).
4	Q&A Session	Team answers questions from the evaluators (3 mins).
